## SKILLS

Java Script

React.JS

Firebase

HTML

CSS

Bootstrap

Git

web development

Node.js

MongoDB

Express.js

## PROJECTS

### Text to Speech Converter - JS

- Elevated communication and productivity through contributions to VoiceText Pro, the foremost Text to speech Converter app. Demonstrated a strong appreciation for the significance of spoken language, serving as a catalyst for effortless speech-to- text conversion.

### NewsApp - React JS

- Architected and crafted a dynamic, user-centric news application using React JS. This innovative app showcases real-time news articles from diverse sources, elevating the browsing experience with search functionality and neatly categorized news sections.

### FoodClub-Heystreet - MERN Stack

- Heystreet is your go-to for street food, with info on veg and non-veg options. Get detailed reviews, exact locations, and easy pre-ordering to enjoy the best local eats stress-free. Explore confidently on our user-friendly platform, backed by reliable content moderation. Snap photos to capture your culinary journey and join Heystreet for a delicious adventure through your city's streets.
- **Live link** - <https://foodclub-heystreet.onrender.com/>

### RentalService - MERN Stack

- All property related information is available within this web application called Rental Service, such as customer can get complete information about any rental property like car, house, residential house, villa, PG-house etc. And if the property is to be sold, it can be sold
